

Waiver of Extended Warranty Protection

This certifies that the undersigned has been offered the opportunity to purchase extended warranty coverage on the major mechanical systems of their new boat. This coverage is designed to protect the boat owner from the high costs that can be associated with an unexpected mechanical failure. It is understood that any costs of repairs needed outside of what the manufacture's warranty covers will be the boat owner's liability.

After careful consideration, I hereby certify that I do not wish to exercise my option to purchase the extended warranty protection I have been offered.
